

~Keep the Door Open: For the Future of Girls~

October 11 is recognized by the UN as the International Day of the Girl Child.

Currently, 66 million girls are said to have been deprived of their access to education. Just “because she is a girl,” not only girls’ access to education or to work has been taken away, their human dignity has been violated, or even they have been killed.

Inviting a college student from Pakistan, we will learn the situation of girls in

Pakistan and around the world. You are cordially invited to join the symposium to learn and share ideas about situations surrounding girls.
